### STORAGE & INSTALLATION

Ultimate Systems recommends storing rolls on their side at a minimum of 55 degrees Fahrenheit with less than 50% humidity. Do not store rolls on end.

Ultimate Design Full Depth roll products can be installed using standard commercial resilient flooring installation practices. Subfloor surfaces should not vary more than 1/8" in ten feet. For new concrete or asphalt surfaces, allow 30 days cure time prior to installing rubber flooring.

Orders for more than one roll of rubber will be marked with letters (i.e. "A", "B", "C") to insure that each roll is positioned correctly during installation. Roll "A" should be positioned next to roll "B" and so on. If rubber rolls are installed out of sequence, each roll could potentially result in undesirable seam gaps.

Ultimate Systems suggests using a quality adhesive with a urethane base for permanent installation of its rubber flooring products. For recommended flooring adhesives, visit [www.firstinrecycledflooring.com](http://www.firstinrecycledflooring.com).

Line paint is suitable for use on Ultimate Systems' interior or exterior synthetic rubber products.

### MAINTENANCE & FLOOR CARE

Maintenance and floor care depends on the desired appearance of the installed product and the type of equipment used to maintain the flooring. For specific products recommended by Ultimate Systems, visit [www.firstinrecycledflooring.com](http://www.firstinrecycledflooring.com).

### A WORD ABOUT WARRANTY

Ultimate Systems warrants its rubber flooring products to be free of manufacturing defects in MATERIAL ONLY for a period of one year. Liability is limited to replacement of product to the original consumer.

Skive or knife marks on product is an inherent characteristic of using recycled rubber and will not be viewed as an appropriate reason for rejecting the final finished product.

Every effort is made, in the manufacture of rubber flooring products, for consistency of size, color and density within a given lot number. Slight variations can occur from lot number to lot number.
